HELP YOUR CLIENTS RAISE FUNDS

with eFundraising for Professionals

Looking to maximize your revenues while helping your clients surpass the ambitions set out for their company? We know that raising funds is a long, regulated and expensive process, especially after the closing since it often results in the constitution of a shareholder base of more than 10 investors. The time spent on their management (regulated communication, transactions, payments, reporting, UBO type administration, governance, legal acts, ...) is too high and leads to a significant cost.

Spreads is now making its eFundraising for Professionals services available to professionals to allow their clients to manage efficiently, flexibly and securely their fundraising and their existing or future investors, whatever their number or type (crowd, business angels, employees, FFF, ...) and this for half the traditional costs! Increase your revenue or margin by outsourcing your clients' fundraising or investor management to us.

Get in touch with our CEO (charles@spreads.com) to discuss all the details of a potential partnership with us (and sign a contract). The basic idea is that we are your supplier. You handle and invoice your client and make a margin on our services and infrastructure. **In a few days, you can be starting using Spreads to support your fundraising business!**

What do we offer?

1. We transform the information destined to investors in a **regulatory compliant document** and make sure that the information process of the investors is correctly handled.
2. We give you an **easy way to direct investors** to said information.
3. We give **access to 45k+ investors**.
4. We offer the **transactional infrastructure, handling all KYC (Know Your Customer) and transactional operations** of the investors, including payments.
5. We offer the investors **pooling infrastructure and services** and therefore: (I) prepare, review and sign all the necessary documentation for the notary closing for the investors (II) manage the investors during the entire duration of the investment (general assemblies, payments, preferential rights, etc).

Who is eFundraising for Professionals for?

1. **Start-up studios, incubators and accelerators** willing to support their fundraising services or add a new service to their current offering.
2. **Professional fundraisers or advisors (lawyers, accountants, ...)** willing to increase the profitability of their services.
3. **Crowdfunding platforms** willing to outsource (part of) their back-office operations.

Why use eFundraising for Professionals?

Maximize your revenue

By using Spreds as service to support the fundraising process, you get to save time and money (including legal fees), thus increasing your profit margin.

Investor pooling

Make sure your clients has the right pooling vehicle* set up for its investors, from the very start, to avoid heavy administrative and legal burdens or worse, deal breakers with institutional investors in the future.

Increased success rate

Increase chances to get your clients funded thanks to an easy access to the fundraising information and to a network of 45,000 investors.

Reinforce your image

Your clients promoted on spreds.com will be labelled as your clients, meaning that you showcase your involvement and position yourself as a reference player on the fundraising market.

Secure and compliant fundraising

Make sure the fundraising marketing, subscription process, closing and investors management is done in full compliance with applicable laws.

Who is Spreds?

Since 2011, Spreds has been providing their three digital services to over 400 international companies and associations in order to help them manage more than 35,000 stakeholders.

With **eFundraising** and **ePooling**, companies can reduce the cost of fundraising and investor management by a factor of 3, thanks to a digital pooling process and vehicle.

With **eGovernance**, international associations and companies with over 100 members or shareholders can organize their general meetings easily and in a legally valid manner, while taking five times less time (and therefore cost) than before.

Spreds can count on a highly specialized and experienced team, which pays particular attention to the execution of well-defined processes, has highly specialized legal expertise, and strong in-house IT development capabilities, offering its customers both rigor and flexibility in service.

Our clients

With more than **400 clients** managed and over **35,000 users**, Spreds has established itself as a leader in the digital management of stakeholders. Spreds has seen strong annual growth in all 3 of its products.
